Your presentational project is to create a Poster about caring for the Environment. You will use recycled paper for and materials for this project, of course!

Meets expectations:

I complete the task according to expectations. The information I present is accurate and relevant:

- Have several phrases centered around a main theme...(+/-or title)
- must include pictures
- Ideas: caring for earth at home or school, taking care of the water...think about using old vocab like bosque, naturaleza, playa
- Gr 4 U2 vocab
- vocab about animales

1. I include several phrases around
A MAIN THEME.

Choose something meaningful to you.
What do you feel strongly about?

Some main theme ideas:

- Cleaning up/caring for water
- Taking care of earth at home/school
- Energy savings
- Helping animals
- Taking care of our community
- Air quality
- ????? Your idea. Share with me.

2. I include several pictures that support my theme

- Draw your own
- Cut out of magazines
- Use recycled things from home or school

3. My writing is clear and I spell Correctly

- I use my vocabulary sheets
- I check and recheck my work
- I use Spanish from past ... (me cepillo los dientes, me ducho, voy en bicicleta, etc)
- Someone reading my poster will understand the message
